# WELCOME

HELLO! I'M ..

Andrew, and whilst I don't take myself too seriously, I'm seriously passionate about creating the best wedding films out there.

So I'm looking for couple's madly in love, who don't mind me capturing that love on film...

'Love is..' such a wonderful thing and I know first hand just how much it changes your life forever.

My style? Well it varies... Reflecting the personality and style of the day and you as a couple. Either way, you can be assured that my artistic eye for detail and experience in anticipating special moments, ensures that the full emotion & impact of the day is captured. Then the real work of editing it all in the most 'love-filled' and beautiful way to ensure that you are blown away with just how wonderful the entire day was, and how amazing you look!

My approach? I try to be as authentic and unobtrusive as possible - a discreet documentary-style filmmaker. Although if you're up for it, I can be both a fun hands-on videographer - joining in on the dance-floor or quietly soaking it all in from the outskirts. Most feedback that my warm, relaxed and friendly nature really helps you and your guests enjoy the day without feeling that you are performing for the camera.

My films? Well, they are all about real people, real stories and the true emotions of the day. Nerves, Excitement, Joy, Laughter. I don't want to fake any of these moments in your film so I won't ask you to fake them on the day. Your films will be full of candid moments and all the special memories you made, and some you never even saw happening.

# EMOTION IS EVERYTHING

## MEMORIES

Your wedding day is a once-in-a-lifetime event, and a wedding film ensures that it lives on. I feel blessed that I get to provide you with a timeless gift that you can share with your children, your grandchildren, allowing them to witness the love that started it all.

So let's begin this incredible journey together, and do remember that a wedding film is an investment in memories.

*Andrew Made Magic! Our day was all about our family and friends coming together from near and far. We wanted it to be special for everyone and particularly the kiddos. Andrew captured the energy, ambience and alllllll the love of the day! We have been blown away by the videos and can't recommend him enough. Jon, the groom, is not a fan of cameras and he was so comfortable with Andy. Also I truly think having Andrew there enhanced the day, he has such an eye for visuals and supported the photographer to get some great shots!*

Ashley & Jon

It's my goal to create modern cinematic wedding film that tells the story of the best day of your life. Fusing beautiful visuals along with emotional soundtracks as well as emotional vows & speeches from your day I craft stunning films that allow you to relive the magic over and over again.

# BEHIND THE SCENES OF YOUR WEDDING FILM CREATION

## AERIAL FOOTAGE

One of my favourite ways to capture the day is from above. To see the venue and location in its full glory with you and your guests enjoying the day is so unique. We fly the drone at various times throughout the day, capturing the quiet morning, confetti and group shots as well as evening do, so you'll see the day unfold from a Birds Eye view too..

## MUSIC LICENSING

The audio and music are crucial in creating an emotional and effective film. In fact a film is 50% sound, and music is something of a passion of mine. I take great care in selecting licensed music that represents you and suits the energy and emotions of your wedding day. You are welcome to be part of this process and we'll discuss this in more detail at our first meeting.

## COLOUR GRADING

Another sometimes hidden aspect of a film is its final look. After ensuring the perfect exposure on multiple 4K cameras the work begins in the editing suite. Each shot is lovingly crafted and colour graded, so that you stay immersed in the emotions & feelings the film provokes. This attention to detail is another aspect that gives my films an overall professional finish.

“WE BOTH WATCHED IT IN COMPLETE AWE”

# OUR JOURNEY TOGETHER

I approach every film as if it's the first and last film I'm ever making, and every couple as if it's my own wedding..

## THE PERFECT MATCH

It's essential that we click. Let's meet on zoom and discuss your wedding day and video wish-list and see if we're a good fit for each other. Once you've decided on which service you'd like to book, I'll send you your contract. Once your deposit is received, your date is booked!

## GETTING TO KNOW YOU

In the run up to your wedding, we'll create time to get to know each other and that you're comfortable with everything that's planned. From zoom calls to pre-wedding shoots, you'll be confident that I've everything in hand. A final questionnaire will ensure I've any final details needed & that it's all in hand, so that you can just go ahead and enjoy every second of your special day..

## ON THE DAY

My assistant and I pride ourselves on our discreet approach. I work closely with the photographer to be a cohesive team to both capture the best shots, and everyone comments on what a calm and warm presence I am to have around before the big moment. .
